

**FPL Energy.**

## Wind Technician

Join a leading clean energy provider. FPL Energy, the wholesale generating subsidiary of FPL Group has a growing presence in 24 states and more than 11,500 megawatts of generation assets in operation. Work with cutting edge technology. Troubleshoot complex problems and enjoy the rewards of a job well done.

### General Description:

Perform regular preventative maintenance and repair activities on wind turbine generators including lubrication, gear-box tear-downs. Perform electronic and mechanical troubleshooting activities as required. Attend regular safety meetings and follow appropriate company safety and environmental policies. Operate, maintain, and manage utility truck and tool inventory. Must be able to work outdoors in inclement weather, climb ladders without assistance, and work at heights greater than 100 feet from the ground surface.

### Minimum Qualifications:

- High school education or equivalent, technical Associates degree preferred or combination of education and experience.
- Drivers license
- Safe work habits and knowledge of regulatory requirements
- Hand tool, mechanical, and electronics knowledge

### Typical tasks:

- Typical work schedule is Monday – Friday 7:00 AM to 3:30 PM (must be willing and able to work overtime and travel)
- Troubleshoot, maintain, and repair electro-mechanical equipment of wind turbine generators
- Must be able to climb freestanding wind turbine towers as needed. These towers can be of tubular and or lattice type, and can be in excess of 200 ft. or more.
- Attend regular safety meetings
- Follow appropriate company safety and environmental policies
- Complete reports and paperwork as required

### Comments:

- Successful candidates will be self managed, and computer literate.
