Mission

- 1. CG MAGTFTC is responsible to the CG Training and Education Command for the administration and conduct of the Marine Corps Air Ground Training Program (MCAGCTP) and will exercise control of all units and forces participating therein, when assigned.**
- 2. CG MAGTFTC is responsible for the Center's real estate, facilities, base property and assigned personnel. CG MAGTFTC exercises command of responsibility through the execution of operational control, administrative control, technical direction, and coordination to accomplish the assigned mission and tasks.**
- 3. CG MAGTFTC administers and conducts the Marine Corps Air Ground Training Program (MCAGCTP) for the live fire combined arms training of operating force units, both active and reserve.**

Proposed Additional Civilian Personnel (Part I)

MCAGCC has authorization to hire 50 billets locally in 29 Palms over the next 3 FYs directly in support of the training mission.

11 FY08

21 FY09

18 FY10

MCAGCC anticipates authorization to hire 63 billets over the next 3 FYs which will provide critical, yet indirect support to our training mission.

27 FY08

18 FY09

12 FY10

6 FY11

Marine Air Ground Task Force Training Command Marine Corps Air Ground Combat Center

Proposed Additional Civilian Personnel (Part II)

Additionally, as a result of a Marine Corps wide initiative to reduce reliance upon temporary Marine help within our Military police function, we will hire 64 civil service security officers and 24 contractors to assist with the administrative overhead within the Provost Marshal office .

20 FY08

15 FY09

15 FY10

14 FY11

Support to the Community

- Established the Community Liaison Office in Feb 07 to provide a single source for the community to interact with the base.
- During fiscal year 2006 the base generated \$589,534,981 of economic impact for the community.
- Direct Support within the Community Color Guards – 28, Other events - 18,
- Established the Tortoises Research and Captive Rearing Sites so that vulnerable tortoises and hatchlings are protected until they can fend off predators on their own. Currently have a very high success rate of eggs to hatchlings.
- Explosive ordnance training for local and state law enforcement.
- Toys for tots 37,537 toys collected and distributed to the Morongo Basin and Coachella Valley.
- Blood drive ; 1,862 pints of blood collected on the base for the local blood bank.

Support to the Community

The base Fire Dept expended 1,367 man hours on 172 fire, rescue or emergency calls in off –base neighboring communities in 2006. This includes the Pioneer Town fire as well as the the recent fires in the Running Springs area.

Conducted Fire Awareness Training to 200 Outside firefighters . Utilizing old military housing slated for demolition, allowed the firefighters to train and practice attacking actual fires and zero visibility search and rescue.

Study of Potential Land Acquisition

- 1. During the study, the Marine Corps analyze land along the contiguous boundaries of the combat center for possible acquisition, as well as looking into any airspace requirements that may be needed to support training in the respective area.**
- 2. The first step in the process is undertaking an environmental impact review and assessment, a process that will involve a great deal of input from the local community.**
- 3. It is imperative that your Marines receive the most realistic training before deploying into a combat environment which demands split-second life or death decisions. The land parcel additions would allow Marines to train as they fight at a large-scale Marine Air Ground Task Force level.**
